

## **Who is Hope House? What is Program Living?**

Hope House Ministries has been serving the people of our community since 2009 with a constant focus and goal, "*Alleviating Spiritual and Physical Poverty through Gospel Restoration.*" Our Program Living Facility is an extension of that mission and is a Christ-centered, faith-based, gospel-driven reconciliation program for men.

Program Living is not a come and go as you please Halfway House. We are in the business of going beyond treating the symptoms of men's life struggles. We believe the problems of all men such as addiction to drugs, alcohol, pornography, gambling, sex, work, etc. are symptoms of a greater issue. We believe the greater issue is, in fact, that we all have a "heart problem" called sin. Therefore, we see Hope House Ministries Program Living as a heart treatment facility.

## **What is Program Living's format?**

We believe the best approach to long-term recovery and restoration is through a "phased" approach. We use 4 progressing Phases with each one having its own success markers and evaluations. This allows men to see and feel themselves achieving goals as they progress in overcoming their specific struggles. Our approach provides a drug, alcohol, and **nicotine** free safe and structured environment built around the core principles of helping men grow Spiritually, Emotionally, Educationally, and Physically.

## **What if things are going well for a resident, can they leave when they want?**

Simply put, yes. No one will be physically held here or forced to stay against their will. However, at the core of our program is a "covenant agreement" between Hope House Ministries and our Program Living Residents. In order to protect the overall integrity of the ministry we do have a strict walk-off/AWOL policy in place. We work with our residents to provide a safe, Christ-centered, environment to help them overcome the issues of life that have prevented them from being all that God would have them be and we ask for honest commitment from them. We ask that residents come into this covenant relationship with all of their heart, mind, and soul allowing us the privilege over these next 12 months to help them in overcoming these battles and trials. Understand, in our program, they will never be alone in the fight for their sobriety or mental, physical, and spiritual peace.

## **Does someone have to share the same beliefs as we do?**

No, we will not prevent anyone from joining Hope House Ministries Program Living based on a difference in or even lack of belief. Christ teaches just the opposite should be true as He Himself said that He came not to be a physician for the well but rather the sick. We will be respectful of them in all areas of faith, however, we require the same in return.

There are two stipulations to this:

1. One must agree that even if you do not agree with us you will not act irreverently or disrespectfully toward our beliefs, the beliefs of any other resident, anyone teaching, praying, or sharing testimonies related to our or their faith
2. Even if you do not agree with us you will follow all directions, guidelines, assignments, and work as it pertains to both our programming and the faith that leads us as a ministry.

## **Evangelism and Discipleship**

**Bible Study:** This is an hour every weekday dedicated to walking through the Word of God. We have a rotation of ten local pastors that come and counsel our residents through scripture.

**Why Trust the Bible:** Author Gregg Gilbert takes on this question directly; providing clear and concise answers that will help the reader understand and fully learn to trust the Scriptures. This course should equip Christians to defend the Bible and challenge skeptics to rethink their positions.

**Discipleship 101:** Being here at Hope House you are going to hear the word ‘gospel’ used a lot. Even in our mission statement we say we want to “Alleviate physical and spiritual poverty through gospel restoration.” Learn what that means and how that should and *will* impact your life and the lives of others around you.

**Gospel of Mark:** An 11 part series inviting you to trace the steps of Jesus through Israel. Explore the major themes of Mark’s Gospel and ultimately ask yourself: Am I willing to take this journey to embrace discipleship?

**The Prodigal God:** Going beyond the traditional focus on the wayward younger son, glean insights on all the characters from this parable that Jesus uses to illustrate the depths of God’s love and how that grace extends to all.

**I Can Only Imagine:** Using Bart Millard’s story of pain redeemed, brokenness restored, and God gloried, you will go on a 28 day mission to recall past wounds, reorient your present identity and reimagine your future.

**Psalms 23:** Many people are familiar with Psalm 23. But because we all know it, we often breeze through the psalm without slowing down long enough to rest in the assurance it offers. Though only six verses long, this psalm teaches us profound truths about our loving and protective God. By studying Psalm 23, you’ll encounter a life-transforming question: Do you trust the Lord to care for your needs?

**Forgotten God:** In this study you’ll hear Pastor Francis Chan contend that we’ve ignored the Spirit for far too long, and that without Him, we operate in our own strength, only accomplishing human-sized results. In this dynamic study Chan reminds us of the true source of the church’s power—the Holy Spirit. This study we offer a compelling invitation to understand, embrace, and follow the Holy Spirit’s direction in our lives.

**Explicit Gospel:** Sure Christians go to church, but the Christian life is much more than a simple checklist of routine tasks. In this study you’ll see how the explicit gospel will see this life is more than just avoiding bad and being good.

## **Personal Development**

**Jobs for Life:** This nationally recognized course is two days a week for 8 weeks. This job readiness class covers everything from why God created work to the very practical activities of resume writing and interviewing for a job.

**Faith & Finances:** This class written by the Chalmers Center in Lookout Mountain, Ga is once a week for 12 weeks. This class teaches its participants how to faithfully steward their finances through many hands on activities and curricula such as budget making and tracking of all spending.

**Resolving Everyday Conflict:** This class will meet once a week for 8 weeks. This course focuses on how to Biblically walk through interpersonal conflict in a productive and healthy way.

**Be a Godly Man:** This course focuses specifically on how the Bible defines manhood and then through videos, a workbook, and open discussion counsels our residents on how to practically carry out what they have learned as they walk through everyday life.

**24/7 Dad:** Developed by parenting and fatherhood experts, 24/7 Dad teaches men the characteristics they need to be good fathers 24 hours a day, 7 days a week. This “evidence based” supports the growth and development of fathers as caring, compassionate people who treat themselves, others and the environment with respect and dignity.

**Don't Waste Your Life:** Most people slip by in life without a passion for God, spending their lives on trivial diversions, living for comfort and pleasure... and perhaps trying to avoid sin. In this study you hopefully see God has designed us for far more than this.

**Facing Anxiety:** When stress overpowers us and fear infects our minds, it can feel like the peace the Bible talks about is impossible to find. And no amount of pretending, overworking, or isolating ourselves will offer us the peace we need. With real-life stories from people facing various kinds of anxiety, this study helps us see that peace can be found on this side of eternity.

**Unstuck:** Many feel stuck in the routine of life; their jobs, relationships, and daily circumstances. We know it's not the life we dreamed of, and we feel stuck in a life yearning for deeper meaning. Study has been designed to help guide you out of the ruts and pitfalls that so often ensnare us all.

**Relationship Care:** A healthy look at relationships all around us, good and bad, and how they influence and impact our lives everyday. Learn how to start healthy conversations and set up healthy walls around our lives through group conversations and video driven personal evaluations.

**Nutrition Education:** Six week study led by the University of Kentucky's Cooperative Extension Service. Educate men with an understanding to plan nutritious meals on a limited budget, acquire safe food handling practices, improve food preparation skills and change behavior necessary to have a healthy lifestyle.

### **Recovery Focused**

**Gospel Centered Recovery:** This class is our main recovery curriculum. This course specifically walks through and counsels men on the Biblical definition of addiction and how we faithfully work out our lives in light of God's will in regards to the stronghold addiction.

**STEPS:** Steps is a gospel-centered recovery resource that takes people to the root of sin and suffering and leads them to embrace the freedom found only in Christ's redemption. Based on a successful program at The Village Church and featuring teaching videos from Pastor Matt Chandler, this 13-session discipleship tool is essential for Christian counselors, support groups, and recovery ministries.

**Recovered:** Pastor and author Robby Gallaty tells the story of how God radically saved him from his addictions and called him into a life of discipleship. From street drugs, heroine, and cocaine, and blowing through prescriptions to robbing his parents was the only option to prolong his drug habit. Robby hit rock bottom, but God wasn't done with him.

**Goliath Must Fall:** It's likely you have an evil giant in your life, holding you captive, intimidating you with its taunts, and stealing your joy. How do you live as if these giants are dead and silenced once and for all? In this study you'll see that Christ has already won over the enemies that rob you of God's best for your life.

## **Specialized Therapies**

### **Work Therapy:**

New Leaf; Service, Maintenance and Repair allows men with a wide variety of employment and experience backgrounds to put those skills to work. Residents will have the opportunity to see how they can use their God given talents and gifts with a Kingdom minded purpose. New Leaf partners with local businesses, sporting venues and the Bowling Green community to put a resident to work paying down their debt to Hope House and relieving financial burdens from their families. This experience helps teach residents the value of hard work and the joy of serving others well.

New Creations Furniture Company gives the men of Program Living an opportunity to work together building handcrafted items. These handcrafted items are a picture of how God is working in them to bring restoration through Jesus. God has always had a heart to take the old and make it new. To take what is broken and make it whole again. To take something the world has cast out and make it beautiful. Making something new from old scrap wood, symbolizes the transformation that God is working in the lives of these men.

**Exercise Therapy:** We believe in a recovery method by engaging the whole person Spiritually, Mentally, and Physically. For that reason all of our residents participate in a rigorous exercise program while here. We see a strong correlation of success between overcoming the obstacles of poor physical health from drug and alcohol abuse and the determination to live an all around healthy lifestyle. Our Exercise Therapy program has all residents participate in two key activities; CrossFit(whole body fitness) and our Running Program(intense cardio endurance). We get the chance to see these men daily work toward lifelong better health choices as they are also achieving a life of sobriety.

## **Mental and Emotional Care**

**1-on-1 and Group Counseling Sessions:** These counselings are done one-on-one and in a group setting with residents for an hour per week for their entire stay. While the discussion topics are driven by each resident in each meeting and range from past, present, and future concerns the main driver is to point them back to Jesus as their main target in decision making, life navigation, and future planning.

**Changes That Heal:** People are suffering from a whole range of emotional problems: anxiety, loneliness, grief over broken relationships, resentment, and feelings of inadequacy. Often they have been struggling with those problems for years. In this study Dr. Henry Cloud teaches that there are biblical solutions for your struggles with depression, anxiety, panic, addictions, and guilt.

**EXIT:** In this brief video and round table discussion study we look at the strange appeal of suicide to thousands of Americans every year. We dive into why the goodness and care of Christ is always eagerly sufficient for our pains and struggles.

**Abuse and Dependency Assessments:** These may be carried out by a 3rd party counseling organization to satisfy any requirements from either the court systems and/or Cabinet for Health and Family Services. We utilize Clinical counseling care providers from within the Bowling Green area to meet these needs.

**Premarital Counseling:** Offered on an “as needed” or “per request” basis for men and their significant others when they are seeking to establish these relationships on a Biblical premise and for the glory of the Lord. Counselings are available to men currently married and those desiring to be quickly after program completion.

**Clinical Counseling:** Carried out by a 3rd party counseling professional to satisfy a specific requirement from either the Judicial system/s and/or Cabinet for Health and Family Services or Probation and Parole.

The Prohibited RX List is subject to change. On intake, any medications we are not familiar with will be researched by staff to determine if it's allowed to be dispensed at this facility. If the medication is found to cause cross or false positives we will then consult our Medical Advisors if a substitute medication is necessary. Any medication that is not allowed to be dispensed in the facility will be stored for 14 days then disposed of properly. The stored medication will be available for pickup during normal business hours.

## Briefly Answer The Following Questions

**1. Why have you sought our help?**

---

---

---

---

---

---

---

**2. What difficulties are you facing? What have you done about these difficulties?**

---

---

---

---

---

---

---

**3. What are your expectations from HHMPL?**

---

---

---

---

---

---

---

**4. Is there any other information that we should know?**

---

---

---

---

---

---

---

# COST

***It is our goal and practice that no man truly in need of our services and seeking the opportunity to change would ever be turned away because of an inability to pay.***

The cost of our program to the residents is **\$25.00** per day per resident. These resident fees are both initial and ongoing while in Hope House Ministries Program Living. We want to affirm the good practice of knowing when worth is applied to something then it's value is legitimized and respected. Essentially when you are invested in something you appreciate it more.

Our costs include an enrollment deposit of **\$250.00** due with this application, or at intake, that will be applied to a Resident's initial monthly fees of **\$750.00/month**. This is to help in covering a portion of our expenses for your care, treatment, and support. However, if a resident receives any additional income (such as SSI, EBT, Food Stamps, Workers Compensation, or Disability) Hope House Ministries Program Living **will absorb** that revenue to help cover all additional cost of the residents care while in our program.

We will work with your family, friends, loved ones, employers, or whomever else to make possible the chance for anyone to attend our program that is desiring this type of restoration for their lives. Before completion of Program Living a resident will meet with our staff and/or the Board of Hope House to determine a fair payment schedule for any owed amounts to Program Living. Arrangements, requests, and any other questions concerning this issue will be addressed directly by the Program Living Director.

- 
- If for any reason I do not complete the full 12 months of Hope House Ministries Program Living I understand that no pre-paid portion is refundable.
  - I understand that I will be fully responsible to pay for the time I have been a participant in this program at the rate of **\$750.00/month**, and will work diligently with Hope House Ministries to pay this in full.
  - I understand that if for any reason I do not complete the program, any amount owed is subject to be turned over to collections should payments not begin immediately.
  - I understand this balance will likely be more than my initial debt due to additional fees and penalties. Collection fees will increase my account balance by an additional 33%.
  - By completing this application I am in full agreement with these conditions as it relates to my service fees and the repayment of those fees to Hope House Ministries Inc.

# CLOTHING

This is all that we ask you to arrive with as a resident in our program. No previously opened toiletries, food, or entertainment resources will be allowed at entry. We do ask that you dress appropriately according to weather and daily activity both of which you will be informed of by the Hope House Ministries Program Living staff.

If your family or friends would like to bring you anything in addition to what you arrive with they can do so provided they follow the instructions laid out in the Program Living Handbook. You will need at least 10 complete outfits, if you do not have them then you will need to speak with Hope House Staff so that they can be sold to you through the Hope House Community Store.

In addition to that you will need one pair of work boots, one pair of running shoes, and at least one pair of dress shoes for church. If you do not have these items then you will need to speak with Hope House Staff so they can be sold to you through the Hope House Community Store also. Our most basic clothing advice is that you will need items to “work” in, to “work-out” in, and to go to “class and/or church” in.

- Shoes are to be worn outside at all times
- Sleepwear is not to be worn as daily attire or outside
- Must be fully dressed by 8:00am even on the weekends
- You may not wear clothing with profanity, racial or sexual remarks, alcohol/drug signs or gang signs
- You may not borrow clothing or other personal belongings without prior permission from individual
- Headgear of any kind will not be worn anywhere it is deemed by staff to be inappropriate
- Headgear when worn will be worn correctly; fads, fashions, or styles deemed inappropriate by staff will not be worn
- Undershirts (white T-shirts, “wife beaters”) will not be worn as outerwear even at the gym.
- Dirty, torn, or unsightly clothing will not be worn
- If a staff member ask you to change, you must
- Residents will adhere to the strict *Courtroom Appearance Policy*, outlined in our Handbook.

**Failure to adhere to the dress code will result in loss of that particular article of clothing or other consequences. There are no exceptions to the clothing dress code.**

# COMMITMENT

Dear Friend,

It is important that you understand what this commitment really means. We look at this commitment as a legally binding contract signed by you giving your word that you will not change your mind about staying in the Hope House Ministries Program Living.

We fully expect you to go through hard periods because it is part of making changes, but we ask you to trust us as to when the job is done and you've moved through all of the phases of the program. There will be many milestones and to leave before all is accomplished will be cutting the opportunity short. We take our investment in your life very seriously. There is preparation, love, prayer, teaching, and guiding. We pray over each applicant and accept those we feel are serious and sent by God for His purposes. Many times that means having to deny someone else needing and wanting help. We ask you to respect that investment.

In your commitment we are asking for your all and your determination. If you do not mean business, you are not sure, or that it is someone else's desire for you to be here only, then we ask you not to sign this commitment or continue your application process. God bless you and the decision you are making about your future.

Sincerely,  
Jonathan Calloway  
Program Living Director  
Hope House Ministries

---

## **Covenant Statement**

I agree to commit to staying at Hope House Ministries Program Living for a minimum of 12 months. I understand that staff will meet with me regularly to discuss my progress.

I understand that it takes time for the complete healing/recovery/restoration process to take place and it is the decision of Hope House Ministries Program Living staff to when that time will be. I understand and commit myself to give honest consideration to all the guidance and direction given to me by the staff, volunteers, and leadership of Hope House Ministries Program Living.
